

CHIRAG JETHVA

Full Stack Developer · Systems & Scalability

chiragjethva23@gmail.com | +91 6354809704 | [LinkedIn](#) | [GitHub](#) | Surat, India

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of hands-on experience building scalable web applications and RESTful APIs using Node.js, React, Next.js, Flutter, and PostgreSQL. Focused on developing efficient, real-world solutions with strong attention to performance and code quality.

EDUCATION

B.Tech, Information Technology

2023 – 2026

Devang Patel Institute of Advance Technology & Research, Charusat University, India · CGPA: 7.58

Diploma, Information Technology

2020 – 2023

L.E. College, Morbi, India · CGPA: 8.00

WORK EXPERIENCE

Full Stack Developer (Freelance) | [KnC Future Tech](#)

Jul 2024 – Present

- Developed and delivered custom full-stack web applications for clients using Next.js, React, Node.js, and MongoDB.
- Successfully deployed **2 live production projects** ([www.cloudventors.com](#), [www.shreegayatriagency.com](#)) with stable performance by managing hosting and domain configuration.
- Designed and built **scalable RESTful APIs** and optimized backend logic for better performance and maintainability.
- Created responsive and user-friendly UI components using Tailwind CSS to improve user engagement and accessibility.
- Handled **end-to-end project execution**, including requirement gathering, system design, development, deployment, and client support.
- Debugged and resolved production issues, ensuring smooth application performance and reliability.

Backend Developer Intern | [AndAI \(SwitchKart Project\)](#)

Nov 2025 – Feb 2026

- Designed and developed RESTful APIs for the SwitchKart platform using Node.js, ensuring efficient and structured data flow.
- Collaborated closely with frontend developers for seamless API integration and smooth user experience.
- Optimized API performance and reduced response time through efficient backend and database handling.
- Implemented authentication and authorization mechanisms to secure application endpoints.
- Assisted in database design and schema optimization for better scalability and consistency.
- Conducted **comprehensive manual testing of both user application and admin panel**, identifying and resolving issues before deployment.
- Participated in debugging and QA processes, ensuring **zero critical issues at final delivery**.

Node.js Developer Intern | [Toshali Infotech](#)

May 2024 – Jul 2024

- Built CareerBridge, a full job portal web app, using Node.js and MongoDB implementing auth, profile management, and application workflows from scratch.
- Accomplished a production-ready hiring platform measured by complete feature coverage across candidate and company flows, by independently owning backend architecture decisions.

PROJECTS

Clothes Bazaar - Clothing E-Commerce Platform (In Development)

Tech: Flutter, Next.js, NestJS, PostgreSQL, Firebase Auth, Tailwind CSS

- Building a scalable India-focused clothing marketplace solving high commission rates, return fraud, and delayed payment issues endemic to existing platforms.
- Architected a multi-module system: Flutter mobile app, Next.js seller dashboard, NestJS microservices backend, and PostgreSQL for transactional data integrity.
- Designed payment-grade backend workflows with escrow-style payout logic to guarantee seller payment security.

CloudVentors - Cloud & Digital Solutions Platform — cloudventors.com

Tech: Next.js, Tailwind CSS

- Delivered a high-performance marketing and services platform for a cloud solutions company, optimized for page speed and lead conversion.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Dart

Frontend: React.js, Next.js, Flutter, Tailwind CSS, Responsive UI

Backend: Node.js, Express.js, REST APIs, Authentication Systems, Microservices

Databases: PostgreSQL, MongoDB, Firebase

Tools: Git, GitHub, Postman, VS Code, Figma
